Japanese Language
Proficiency Test
Level 5

Certifications

2022
Machine Learning with Python - IBM
- Demonstrated a good understanding and application of machine learning (ML) including when to use different ML techniques such as regression, classification, clustering and recommender systems.
- Acquired the skills to use different machine learning libraries in **Python**, mainly **Scikit-learn** and **Scipy**

2022
Analyze Data to Answer Questions - Google
- Apply the use of functions and syntax to create **SQL** queries for combining data from multiple database tables
- Demonstrate an understanding of what is involved in the conversion and formatting of data

2022
SQL (Intermediate) - HackerRank
- **SQL** concepts, it includes complex joins, unions and sub-queries.

Experience

2021-2022
DICOLAC | Bank Remodeling Project Assistant
- Presenting complex 3D modeling and CAD Drafting for banks and factory remodeling proposals
- About 2 years working with the Bank's Infrastructure Area Management

2021 - 2022
GoPillar | Freelancer
- Winner of multiple contests adapting projects to the client's requirements
- Talking directly with customers to know their requirements.
- Decision making to manage lead times to get the best quality/time ratio for the projects.

2016-2018
Magnolia | e-Commerce co-owner
- Facebook ads management for a profitable +11 000 followers page.
- Website and facebook page design.
- Budgets for ads and distribution.
